Hilton Sedona Resort
90 Ridge Trail Dr, Sedona, AZ 86351

Featuring 14 hours of COPE-Approved education

Don’t miss our vendor hospitality suites on Saturday night!
PROGRAM

FRIDAY, NOVEMBER 15

9:00am  Dr. Bruce Bridgewater Memorial Golf Tournament at Sedona Golf Resort
1-5pm  Registration (please note that registration doesn’t open until 1pm)
2-4pm  How Artificial Intelligence (AI) is Changing Eye Care/Rogoff/pending
Artificial intelligence (AI) in eye care has captured the imagination of eye care providers. This course will introduce the basic foundation and concepts of AI and the methodology used for interpreting photographs for the possibility of referable diabetic retinopathy, the most use of AI in eye care, along with other areas of eye care where AI is being used. The future role of a “live” practitioner is also highlighted in collaborating with AI in streamlining gap closures in systemic and eye disease.
4-6pm  Strategies for 21st Century Care with Telemedicine for Anterior Segment/Rogoff/pending
Telemedicine has been proven to improve patient care, increase access in under-served areas and reduce costs while having better outcomes. Developing technologies with HIPAA compliant software and imaging devices, applications regarding eye care are increasing to include: detecting, screening and diagnosing diabetic retinopathy; anterior segment imaging; glaucoma screening; low vision consultation. This course will demonstrate uses and solutions of telemedicine for diagnosing, monitoring and treating anterior segment disease.
6pm  Dinner on Own
10am-12pm  Rheumatology, Thyroid Dysfunction, and the Eye/Caldwell/60550-SD
This course reviews the close association between the eye, rheumatology and thyroid dysfunction. Clinical features, laboratory testing, clinical examination, and therapeutic options will be discussed. Topics include connective tissue disease, vasculitides, spondyloarthropathies and thyroid disease. The ocular manifestations and management of these conditions will be discussed.
12-2:30pm  AZOA Membership Meeting/Lunch
3-4pm  Retinal Complications of Obstructive Sleep Apnea - Growing Concern/Haynie/61722-PS
Obstructive Sleep Apnea OSA is a condition that is more common and grossly underdiagnosed in the medical community. It is typically diagnosed after complications systemic however ocular complications of OSA have raised the awareness and I believe that ophthalmic providers are in a unique position to aid in diagnosis. This course will review common retinal complications of OSA and when you should consider formal testing to confirm or deny the presence of sleep apnea in your patients.
4-5pm  Diabetic Retinopathy: An Era of Change for Optometry/Haynie/pending
This course will identify the standard classification of non-proliferative and proliferative diabetic retinopathy. Addionally, you will be updated on the current treatment for diabetic macular edema and proliferative retinopathy based on current trends guided by numerous clinical trials.
5pm  Dinner on Own
7-10pm  Hospitality Suites
Come enjoy an AZOA signature event, network with colleagues, and experience the latest and greatest from your favorite vendors in a fun and relaxed atmosphere!

SATURDAY, NOVEMBER 16

7:00am  Registration/Alcon Sponsored Breakfast Presentation
- Please arrive at 7am for breakfast
8-10am  Anterior and Posterior Segment Case Presentations/Caldwell/60575-AS
This course reviews common to complex anomalies of the anterior and posterior segment in case format. This course will include numerous pathologies pertinent to primary care optometric practice and provide clinicians with pearls, therapeutic options and guidance around pitfalls

SUNDAY, NOVEMBER 17

7:00am  Registration/Bausch & Lomb Sponsored Breakfast Presentation
- Please arrive at 7am for breakfast
8-10am  Retina Grand Rounds: A Snapshot of a Day in My Retina Clinic/Haynie/pending
This course includes clinical cases with a variety of retinal pathology. You will have an open discussion on the treatment advances of each case based on results of clinical trials and what is considered the current standard of care.
10-11am  **Endothelial Keratoplasty/Duncan/pending**
This course will cover the spectrum of endothelial keratoplasty including a review as the literature of DMEK vs DSAEK. It will cover the clinical features of endothelial disease, the indications for surgery, intraoperative and postoperative considerations as well as future therapeutic options.

11am-12pm  **Refractive Surgery Update/Duncan/pending**
This course will cover refractive surgery options including PRK/LASIK, SMILE, ICL and Toric ICL, Intacs, Corneal Inlays (Kamra), and Refractive Lens Exchange. Preoperative screening and patient selection will be discussed, as well as current and future trends in refractive surgery.

**2019 FALL CONGRESS FACULTY**

**Bryan M. Rogoff**, OD, MBA, CPHM, FAAO has a unique background in areas of holistic eye care, business management & data analytics. He specializes in all facets of practice management including LEAN clinical management & operations, emerging technology implementation, healthcare & strategic management. Currently, he serves as a consultant for the FDA as well as other industry partners, Immediate Past-President & Education Chairperson for the Maryland Optometric Association, Federal Keyperson & Meetings Committee Member for the American Optometric Association, reviewer for the Council on Optometric Practitioner Education and is the Founder of Eye-Exec Consulting, LLC. Dr. Rogo was named the Benedict Professor of Practice Management & Administration from the University of Houston in 2017 & later awarded “Optometrist of the Year” from the Maryland Optometric Association. Dr. Rogo received his Bachelors of Science in Mathematics from Stony Brook University, Doctor of Optometry from Nova Southeastern University, Masters of Business Administration concentrating in Accounting and Taxation from The George Washington University, a certificate in in Healthcare Management & continues his pursuit of improving healthcare outcomes by pursuing another Masters in Data Analytics Program at the University of Maryland.

**Dr. Greg Caldwell** is a 1995 graduate of the Pennsylvania College of Optometry. He completed a one-year residency in primary care and ocular disease at the Eye Institute of Philadelphia, PA. He is a Fellow of the American Academy of Optometry and Board Certified by the American Board of Optometry. On top of working with Doctors of Optometry as an ocular disease consultant, he is a well-respected lecturer. He lectures several times throughout the year to his colleagues. He has given over 300 lectures in numerous U.S. cities and in over 12 countries. Dr. Caldwell has been a participant in multiple FDA investigations. He is a current member and past President of the Board of Directors for the Pennsylvania Optometric Association (POA). He currently chairs Third Party Committee of the POA and is the Board Chair of the Pennsylvania Optometric Political Action Committee. He is member of the State Government Committee for the American Optometric Association. He served 3 years on the Board of Trustees for the American Optometric Association. Currently, he is a member of the President’s Council for the American Academy of Optometry (AAO). Locally, Dr. Caldwell is the President of the Blair/Clear Association for the Blind and Visually-Impaired. Dr. Caldwell has received many awards and in 2015 was awarded the Albert Fitch Memorial Alumnus of the Year from the Pennsylvania College of Optometry at Salus University.

**Dr. Joshua Duncan** is a board certified, fellowship trained specialist in cataract and refractive surgery (LASIK, PRK, and Visian® ICL™), ocular surface diseases, and all facets of corneal transplantation including DMEK, DSAEK, DALK and PKP. In addition to his advanced training in laser cataract surgery and presbyopia correcting implants, he also routinely manages the most complex cataract and intraocular lens cases. Dr. Duncan was born and raised in Phoenix. While playing collegiate football for the University of Arizona, he graduated with honors with a Bachelor of Science in Human Physiology and a minor in Chemistry. He then earned his Medical Degree from Midwestern University. After a one-year internal medicine internship at Banner Good Samaritan Hospital in Phoenix, Dr. Duncan completed his Ophthalmology residency at the University of Arizona in Tucson. He then went on to complete a fellowship in Cornea, Refractive, and Anterior Segment Surgery at Baylor College of Medicine in Houston, a program known as one of the top cornea fellowships in the world.

**Dr. Jay Haynie** graduated from Pacific University College of Optometry in 1992 and completed a residency at American Lake Veterans Hospital in 1993 where the focus was on the diagnosis and management of ocular disease. He served as the Executive Clinical Director of Retina and Macula Specialists until 2018 after which time he joined Sound Retina in Tacoma Washington. He is an adjunct clinical professor at Pacific University College of Optometry, a Fellow of the American Academy of Optometry and a member of the Optometric Retina Society. He is a sponsor of a 4th year internship for Optometry students in his private practice. He is a clinical investigator and continues to be involved in clinical studies regarding retinal disease management, both as a principle and sub-investigator. He is a published author and has become a nationally recognized speaker on advances in technology and the management of retinal disease.
